HEALTH AND SAFETY SERVICES

OHSAS 45001:2018 ISO: 9001:2015

About Us

Our professionalism lies in, medical staffing with doctors and paramedical professional staff having professional acumen for better health care services through diagnostic & therapeutic services at competitive affordable cost.

We are a premier occupational and safety consulting service provider making workplaces safer. We are passionate about reducing risks and injuries onsite through a full complement of occupational safety including deployment, maintenance and arranging relievers.

Expertise

We take pride in declaring ourselves expertise in providing round the clock medical & safety services on industrial construction sites, such as rail and road tunnel constructions, bridges and dam constructions, jetty constructions, oil refineries, power plants and mining industries in compliance with Factories Act. 1948 by ensuring quality and safety standards at all times.

MEDICAL SERVICES

Occupational Health Centre/First Aid units

We enter into an MoU with our clients & plan, manage & run Occupational Health Centres (First Aid units) right in their industrial premises in alignment with the Factories Act.

Ambulance Services

We provide 24/7 ambulance services to industries for providing clinical interventions on the scene for injured or seriously ill patients & transporting them to hospital in an emergency.

Annual Health Checks

As per the Factories Act of India 1948, it is mandatory to conduct periodic health check-ups for all contractual and permanent employees working in industries to ensure occupational safety and health of factory workers.

Mobile Medical Unit (MMUS)

As a part of CSR activities, we operate Mobile Medical units inbuilt & fabricated with a mini lab setup comprising of sophisticated CBC machine, Biochemistry Analyser, ECG Machine (12channel) etc to manage common & chronic communicable diseases, basic OPD care, mental illness, dental, eye / Ent care & emergency medicine free of cost to the undeserved & unreached villages.

SAFETY SERVICES

MANPOWER SERVICES

We deploy specific qualified/efficient & certified Safety Managers / Engineers / Supervisors / Stewards on Industrial sites to identify potential hazards safety measures.

TRAINING SERVICES

Our assigned safety officers provide training to employees on safety topics required which include fire prevention plans, machine guarding and hazardous material handling.

OPERATION PROCEDURES

Our Safety personnel shall assist you with preparation & implementation of Site Safety and Health Plan (SSHP), incident task investigation, workplace inspection, implementation of SOPs and customized training techniques suiting workplaces.

BIOMEDICAL WASTE MANAGEMENT

Effective BMW management is mandatory for healthy life and cleaner environment- Biomedical waste / hospital/OHC/FAU waste contains potentially infectious materials that include needles, syringes used cotton & bandages, lab waste etc. which should be effectively segregated, collected and disposed by authorised agencies like city / district / state Pollution control board thereby preventing spread of unnecessary diseases & ensuring non polluted environment.
